***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance:

Independent claims 10 and 19 when considered as a whole, are allowable over the prior art of record. Specifically, prior art of record does not teach or suggest the combination of means, arranged and interacted to perform the step of "a request manager, the request manager being responsible for listening for, and responding to requests sent to the web server by the web browser, the request manager further being relied upon to queue requests from said web browser in order to permit the set of astronomical hardware to execute the requests in an orderly fashion, said request manager also providing the means by which information is sent back to said web browser utilizing an http protocol" and "an imaging camera manger, said imaging camera manager being the means for said web server to generate and send specific directions to said imaging camera, said imaging camera manager further serving to process information from said imaging camera as well as acting as an image reducer for images generated by said imaging camera". With such limitations, the Examiner deems this application in condition for allowance over the prior arts made of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
